ABOUT ME

Motivated IT professional with experience in software engineering, project management, and technical leadership. Skilled in full-stack development with Java Spring Boot, modern TypeScript frameworks, software architecture design, and scalable cloud applications. Experienced in leading teams, managing projects, and delivering reliable technology solutions with strong problem-solving and communication skills.

EXPERIENCE

Self-Employed

2025 – Now

Khmer Software

Manage end-to-end software projects, including client communication, requirement analysis, system planning, and solution delivery. Lead and coordinate development teams, assign tasks, monitor project progress, and ensure successful project completion. Manage customer relationships, design software solutions, and oversee the development process from concept to deployment.

Software Developer

2023 - 2025

ICG - Gaming

Developed backend services and REST APIs, integrated frontend and backend systems, and implemented new features based on business requirements. Designed database schemas and software architecture, deployed applications to servers, and collaborated with the development team to deliver reliable software solutions.

English Teacher

2020- 2023

Green Tree International School

Provided English instruction to students from beginner to intermediate levels, focusing on speaking, listening, reading, and writing skills. Delivered engaging lessons using interactive activities, audio and video materials, and practical communication exercises to improve students' language proficiency and confidence.

EDUCATION

Norton University

2025 - now

Master of Science in Information Technology

National Meanchey University (NMU)

2021 - 2025

Bachelor of Science and Technology
